Supplement to the
"Proceedings of the Indian Academy of Sciences"

INDEX TO VOL. LX (B)

AUTHORS' INDEX

Agarwal, Man Mohan .. Studies of forms of Aphelinidae (Hymenoptera—Chalcidoidea) collected at Aligarh (India), II, 315.

Agnihothrudu, V. .. Notes on fungi from North-East India, XXIV, 81.

Agnihotri, V. P. .. Studies on Aspergilli, XVI, 273.

Alikunhi, K. H. and **Sukumaran**, K. K. Preliminary observations on Chinese carps in India, 171.

Ali, M. A. .. Diurnal rhythm in the rates of oxygen consumption, locomotor and feeding activity of yearling Atlantic Salmon (*Salmo salar*) under various light conditions, 249.

Babu, D. R. C. .. *See* Ramaiah and others.

Banerji, M. L. .. On the anatomy of teratological seedlings, III, 203.

Bhargava, S. C. .. *See* Mathur and Bhargava.

Bhaumik, Nirendra .. *See* Mukherjee and Bhaumik.

Chacko, M. J. .. Effect of superparasitism in *Bracon gelechiae* Ashmead, 12.

Devi, H. Maheshwari .. Embryological studies in Asclepiadaceae, 52.

Ganapati, P. N, **Narasimhamurti**, C. C. and **Shanthakumari**, K. A new haplosporidian parasite, *Coelosporidium schmackeriae* from the body cavity of a marine copepod *Schmackeria sericaudata*, 309.

Hasan, Rehan and **Jafri**, A. K. A physico-chemical analysis of ripe, unspawned eggs of some freshwater teleosts, 1.

Jafri, A. K. .. *See* Hasan and Jafri.

Job, S. V. .. Description of a new species of digenetic trematode (Fam.: *Didymozoidae*) and some histochemical observations on the same, 128.

Kapuskar, A. T. .. Studies in the embryology of the Leguminosae, II, 87.

Kaul, B. L. .. Spontaneous chromosome breakage in *Aloe barbadensis* Mill, 394.

Khan, M. A. .. On the occurrence and mineralogy of the manganese ore bodies of Eklingji, Udaipur District, Rajasthan, 155.

Lakshmi-Kumari, M. .. Rhizosphere microfloras of *Dolichos* infected with DEMV, 116.

Malaviya, (Miss) Manju .. *See* Rao and Malaviya.

Manna, G. B. .. *See* Subrahmanyan and others.

Mathur, P. N. and Bhargava, S. C. The heart of *Suncus murinus*, 264.

Mohan, K. V. Jitendra .. Cytological studies in *Caesulia axillaris* Roxb., 232.

Motilal, V. S. .. Palynological studies in some non-commercial citrus varieties, 26.

.. Fruit-set studies in sweet lime, 371.

Mukherjee, Ajoy Lal .. Mineragraphic studies of disseminated bodies of magnetite in granite-pegmatite at Nawadiha in Hazaribagh District, Bihar, 341.

Mukherjee, Ananda Deb and Bhaumik, Nirendra Occurrence of sulphide minerals in marbles associated with granitic rocks around Chando, Palamau District, Bihar, 189.

Narasimhamurti, C. C. .. *See* Ganapati and others.

Pal, Mohinder .. Chromosome numbers in some Indian angiosperms, I, 347.

Pandotra, V. R. .. Purple blotch disease of onion in Punjab, I, 336.

Pasha, S. M. Kamal .. The anatomy and histology of the alimentary canal of a carnivorous fish *Megalops cyprinoides* (Brouss), 107.

Periasamy, K. .. Studies on seeds with ruminate endosperm, V, 351.

Prem Khare .. On the morphology and anatomy of *Tectaria cicutaria* (L.), Copel, 414.

Ramaiah, P. K., Babu, D. R. C. and Rao, P. S. Studies on sandal spike, VI, 281.

Raman, C. V.	..	The new physiology of vision, I, II, III, IV, V, VI, VII, 163, 167, 241, 299, 304, 361, 367.
Rao, A. R. and Malaviya, Miss Manju		On the latex-cells and latex of *Jatropha*, 95.
Rao, P. Narasimha	..	Studies of plagioclase twinning in the anorthosites of Oddanchatram, Madurai District, South India, 135.
Rao, P. S.	..	*See* Ramaiah and others.
Rao, T. Ananda	..	On the multiseptate trichosclereids in the genus *Scindapsus*, 66.
Rao, T. Ramamohana	..	The age of the pakhals of the Godavari Valley, 70.
Relwani, L. L.	..	*See* Subrahmanyan and others.
Sahay, M. N.	..	*See* Subrahmanyan and Sahay.
Saxena, N. P.	..	Studies in the family Saxifragaceae, I, II, 38, 196.

Sharma, Sansar Chand	..	*See* Tandon and Sharma.
Singh, Dalbir	..	A further contribution to the endosperm of the Cucurbitaceae, 399.
Singh, V.	..	Morphological and anatomical studies in Helobiae, I, 214.
Subrahmanyam, R. and Sahay, M. N.		Observations on nitrogen-fixation by some blue-green algae and remarks on its potentialities in rice culture, 145.
Subrahmanyan, R., Relwani, L. L. and Manna, G. B.		Role of the blue-green algae and different methods of partial soil sterilization on rice yield, 293.
Sukumaran, K. K.	..	*See* Alikunhi and Sukumaran.
Tandon, K. K. and Sharma, Sansar Chand		On the degeneration and regeneration of optic nerve fibres with return of vision in *Danio rerio* (Ham.), 287.

TITLE INDEX

Algae, blue-green, and different methods of partial soil sterilization, role of, on rice yield (Subrahmanyan and others), 293.

Algae, blue-green, some, observations on nitrogen-fixation by, and remarks on its potentialities in rice culture (Subrahmanyan and Sahay), 145.

Aloe barbadensis Mill, spontaneous chromosome breakage in (Kaul), 394.

Angiosperms, some Indian, chromosome numbers in, I (Pal), 347.

Aphelinidae (Hymenoptera—Chalcidoidea) collected at Aligarh (India), studies of forms of, II (Agarwal), 315.

Artocarpus Forst, morphological and anatomical investigations on, IV (Sharma), 380.

Asclepiadaceae, embryological studies in (Devi), 52.

Aspergilli, studies on, XVI (Agnihotri), 273.

Bracon gelechiae Ashmead, effect of superparasitism in (Chacko), 12.

Caesulia axillaris Roxb., cytological studies in (Mohan), 232.

Carps, Chinese, in India, preliminary observations on (Alikunhi and Sukumaran), 171.

Citrus varieties, some non-commercial, palynological studies in (Motial), 26.

Cucurbitaceae, endosperm of the, a further contribution to the (Singh), 399.

Danio rerio (Ham.), on the degeneration and regeneration of optic nerve fibres with return of vision in (Tandon and Sharma), 287.

Dolichos infected with DEMV, rhizosphere microfloras of (Lakshmi-Kumari), 116.

Fungi from North-East India, notes on, XXIV, (Agnihothrudu), 81.

Helobiae, morphological and anatomical studies in, I (Singh), 214.

Jatropha, latex-cells and latex of (Rao and Manju Malaviya), 95.

Leguminosae, studies in the embryology of, II (Kapuskar), 87.

Magnetite in granite-pegmatite at Nawadiha in Hazaribagh District, Bihar, mineragraphic studies of disseminated bodies of (Mukherjee), 341.

Manganese ore bodies of Eklingji, Udaipur District, Rajasthan, on the occurrence and mineralogy of the (Khan), 155.

Megalops cyprinoides (Brouss), carnivorous fish, alimentary canal of a, the anatomy and histology of the (Pasha), 107.

Onion in Punjab, purple blotch disease of, I (Pandotra), 336.

Oxygen consumption, locomotor and feeding activity of yearling Atlantic Salmon (*Salmo salar*) under various light conditions, diurnal rhythm in the rates of (Ali), 249.

Pakhals of the Godavari Valley, the age of the (Rao), 70.

Plagioclase twinning in the anorthosites of Oddanchatram, Madurai District, South India, studies of (Rao), 135.

Sandal spike, studies on, VI (Ramaiah and others), 281.

Saxifragaceae, family, studies in the, I, II (Saxena), 38, 196.

Schmackeria serricaudata, marine copepod, body cavity of, a new haplosporidian parasite, *Coelosporidium schmackeriae* from (Ganapati and others), 309.

Seindapsus, genus, on the multiseptate trichosclereids in the (Rao), 66.

Seedlings, teratological, on the anatomy of, III (Banerji), 203.

Seeds with ruminate endosperm, studies on, V (Periasamy), 351.

Sulphide minerals in marbles associated with granitic rocks around Chando, Palamau District, Bihar, occurrence of (Mukherjee and Bhaumik), 189.

Suncus murinus, the heart of (Mathur and Bhargava), 264.

Sweet lime, fruit-set studies in (Motial), 371.

Tectaria cicutaria (L.) Copel, on the morphology and anatomy of (Prem Khare), 414.

Teleosts, some freshwater, ripe, unspawned eggs of, a physico-chemical analysis of (Hasan and Jafri), 1.

Trematode (Fam.: Didymozoidae), digenetic, description of a new species of, and some histochemical observations on the same (Job), 128.

Vision, the new physiology of, I, II, III, IV, V, VI, VII (Raman), 163, 167, 241, 299, 304, 361, 367.
